

OrCam Read

Unleash Your Inner Reader Just Point & Click

For people with learning challenges, dyslexia, reading fatigue, low vision, double vision and all auditory readers.

"Hey OrCam" - Voice Activation - Simply speak an intuitive voice command to activate a feature, or to access a device setting - without using any screen, app or cloud connectivity.

"Smart Reading" - Read only the text that you want - Enables you to ask for specific information that you want from the text.

Full Page Capture

Unlike all other devices which require word-by-word scanning.

Smart Reading

Just ask the device to read only the text that interests you.

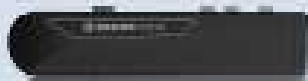

Easy to Use

An intuitive device - simply point and click, that's all there is to it.

No Connectivity Required

Offline operation - for use anywhere.

"The OrCam Read provided the key of access to academic success, for our students with Dyslexia, who reported increased daily reading habits for leisure and academic content, across different types of media".

Meghan Saich, M.S. CCC-SLP
