

## The Only GPS Tracker Designed for Special Needs:

A complete safety device with assistive speakerphone to protect your loved one & give you peace of mind

With live safeguard tracking, you know your loved one is safe at all times. You see their real-time location on a map and receive life-saving alerts if they wander away from safety.

With AngelSense, parents and caregivers gain immeasurable peace of mind, and their loved ones gain independence & the confidence to move about freely without compromising their safety.

## What Parents & Caregivers Are Saying

### A True Lifesaver

*This product literally saved our special child who wandered away from a campsite into deep woods. We had him back in less than 9 min. Safe and sound. It works and we love it!*

**G. Kennedy**

### Peace of Mind

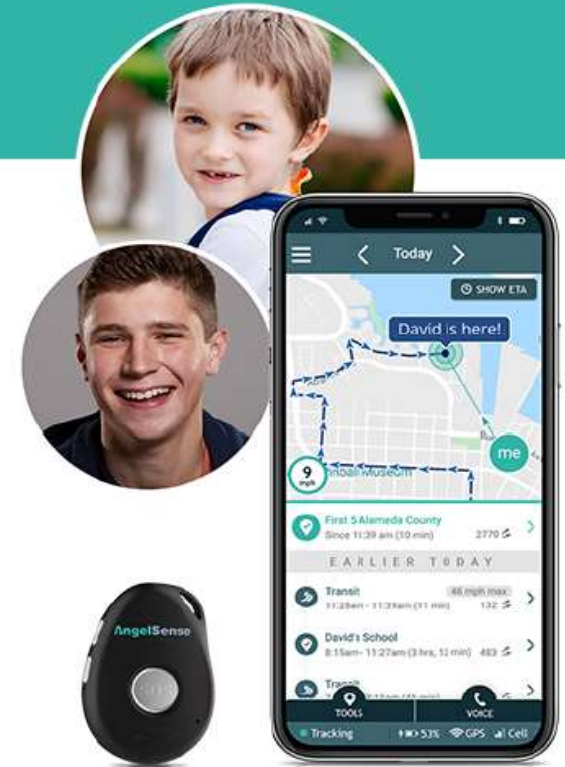

*I bought the AngelSense for my non-verbal 3 year old son when he was beginning school. It is the only thing that gives me any peace of mind while he is on the bus, at school, and on his way home. I know exactly where he is throughout his day. I love this device!*

**Shannon**
