

# FIND PEACE OF MIND WITH INSPYRE™ BY

AVAILABLE ON  
SAMSUNG AND  
APPLE WATCHES

Inspyre™ by SmartMonitor, a leading seizure monitoring app, helps people with epilepsy. Upon detecting repetitive shaking movements, text and call alerts are sent to the user's designated contacts so that they can provide timely intervention. Episodic data reports can be accessed by the user or their physician, and include the time, date, location, duration, and severity of all events, as well as heart rate and symptoms experienced.

## CLINICAL/ADVOCACY PARTNERS

**A SENSE OF PEACE**  
I am grateful for the Inspyre™ by SmartMonitor for giving my 35-year-old son the independence he needs. We find peace knowing that we get an alert in case of a seizure. (Maryanne A.)

**REGAIN YOUR INDEPENDENCE**  
The Inspyre™ by SmartMonitor is pivotal in helping me get better control of my life. (Sophie R.)

**UNCOMPROMISED SAFETY**  
If not for the alert sent from the Inspyre™ by SmartMonitor, we wouldn't be able to tell the paramedics about when my daughter's seizure started and stopped in the night. Thank you (Ronald M.)
